

# Sloan Hill Park – Concept - A

## Design concept

This park concept option embraces a compact geometric form that features rectangular play area with rubber safety surface, concrete pathway connections to Sloan Avenue and Beaumont Crescent, a centrally located square seating area with waste & recycling receptacles, an asphalt surfaced half-court basketball area, on street parking with an accessible stall and deciduous tree plantings enhancing existing site canopy cover.

The play area will include a junior / senior structure geared to ages 2 to 12 years, a swing set, and ground level activities suited to all user age groups.

Pathway connections to both street frontages will be a minimum 2.5 meters in width and concrete surfaced with appropriate accessibility tactile warning strips at roadway interfaces.

# Sloan Hill Park – Concept - B

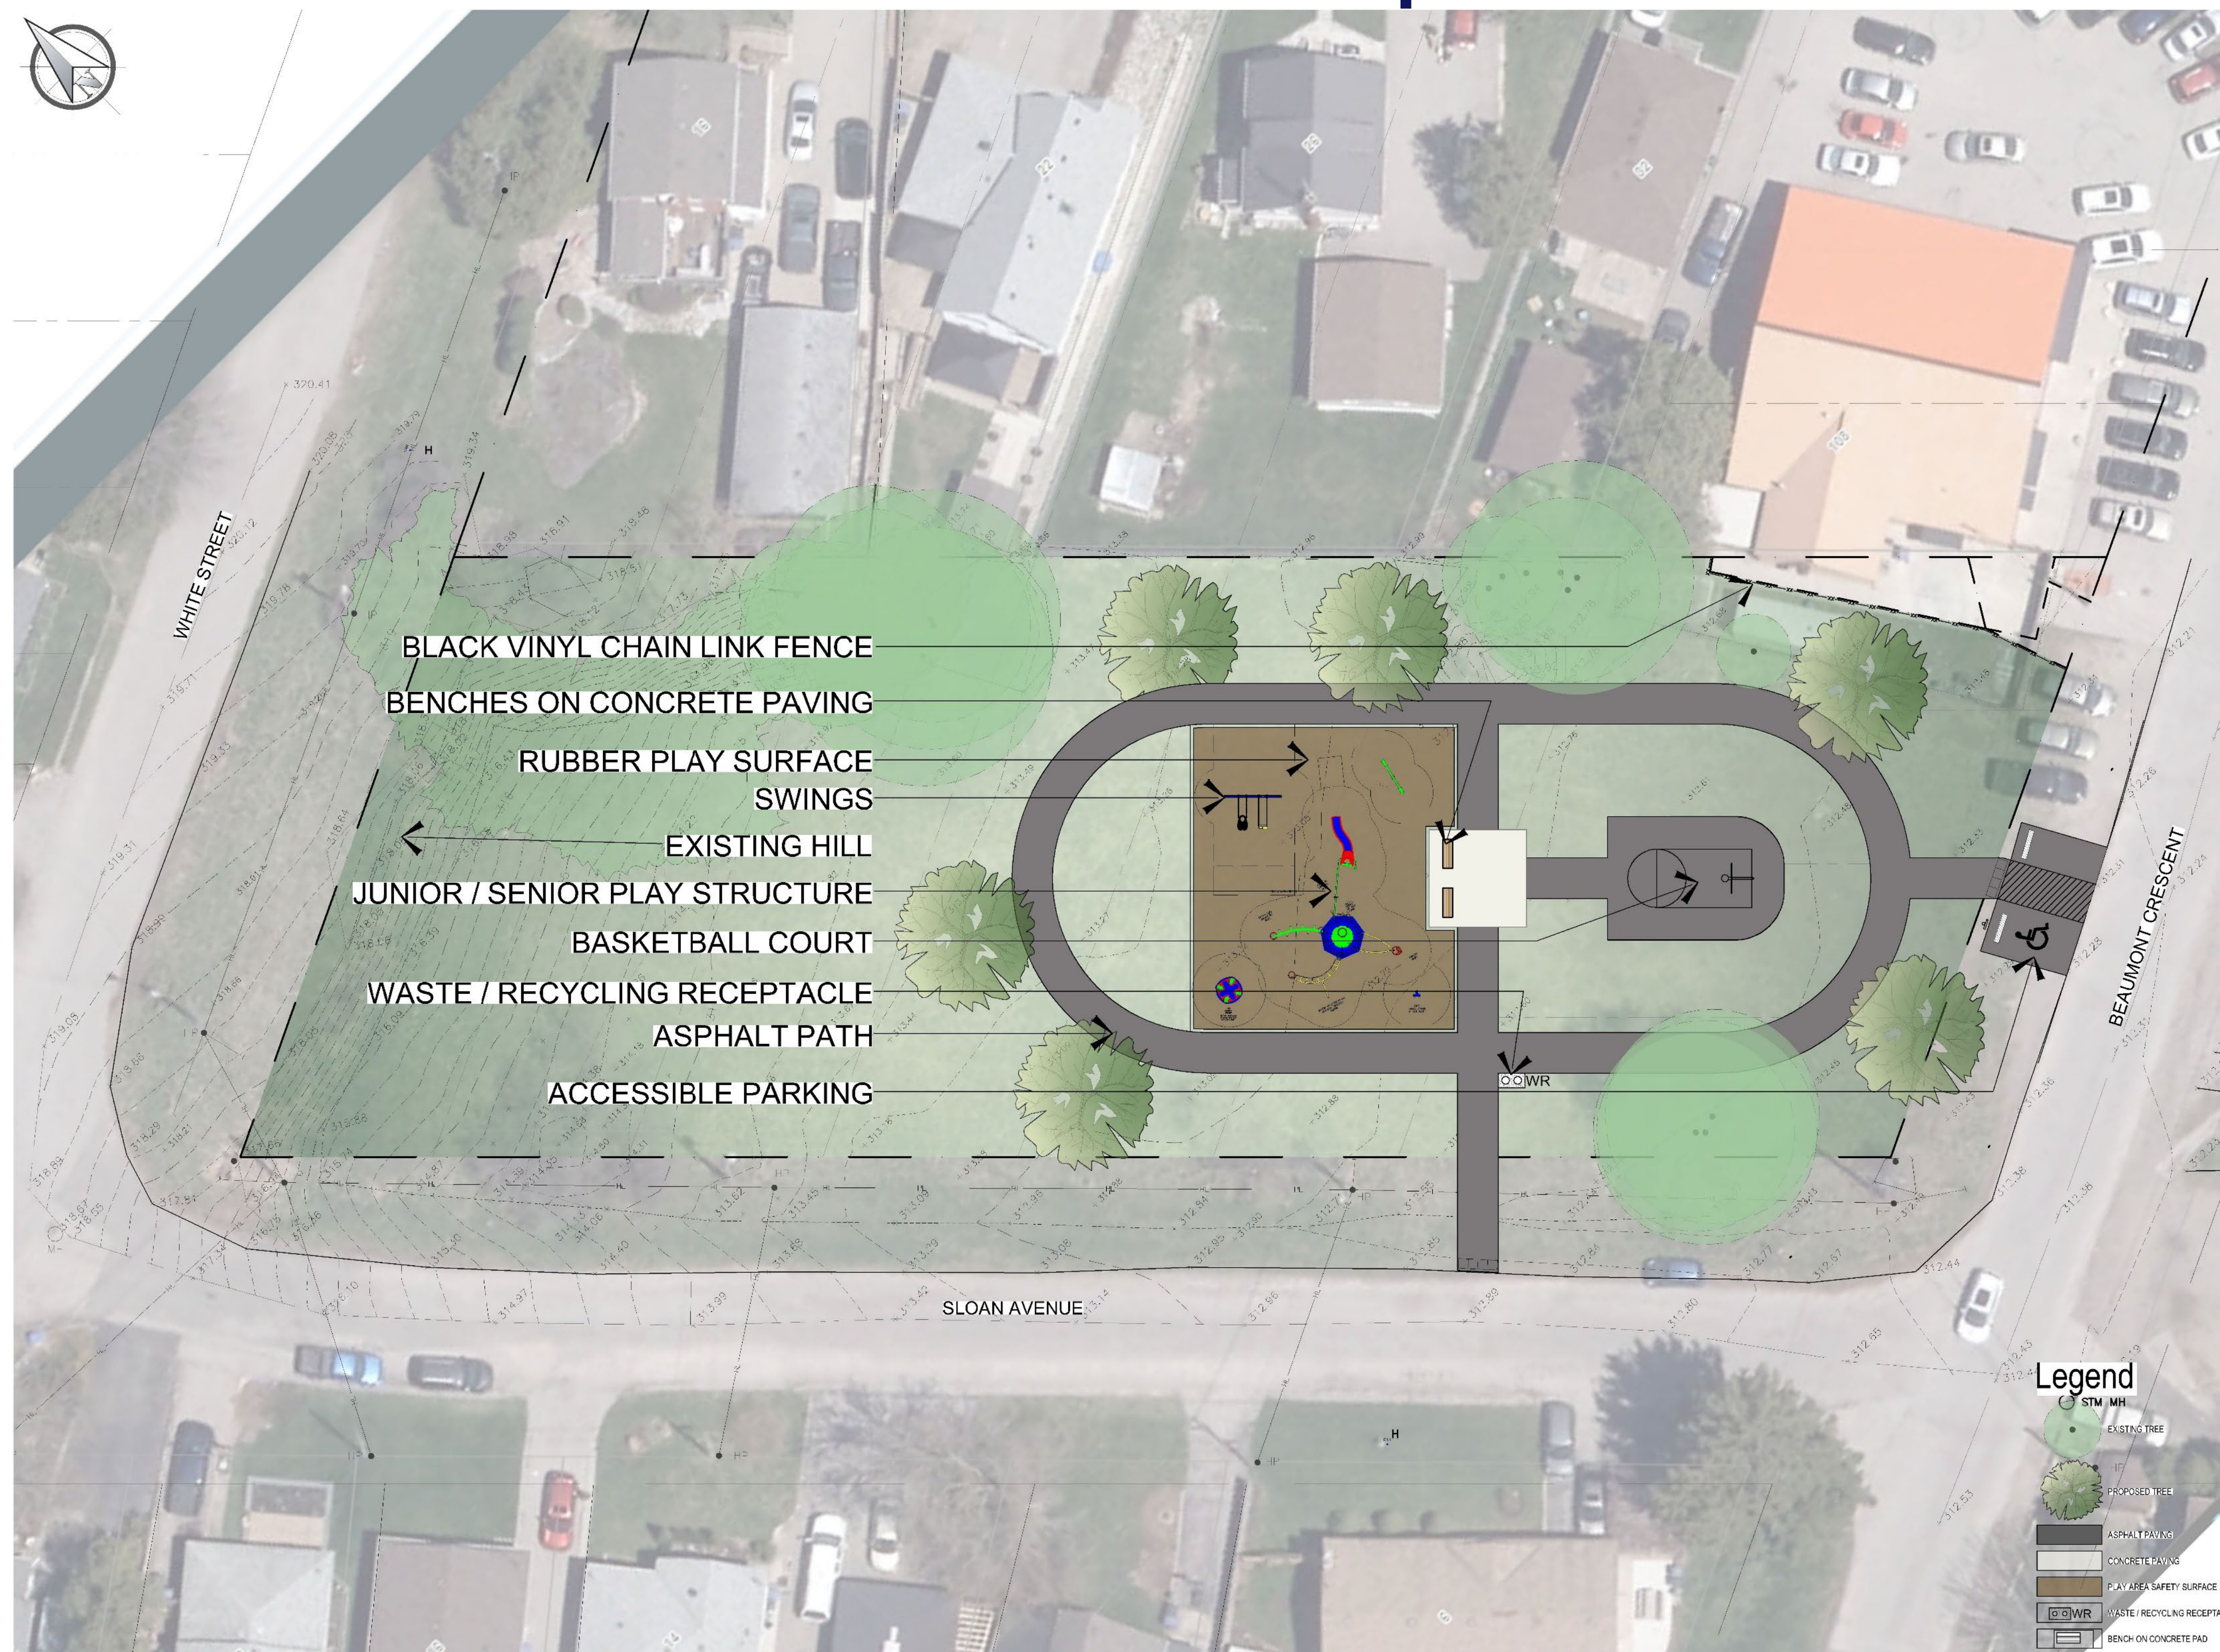

## Design concept

This park concept option embraces a more organic curvilinear form that features a semi-circular play area with rubber safety surface, asphalt pathway connections to Sloan Avenue and Beaumont Crescent, a seating pad overlooking the play area with waste & recycling receptacles closer to Beaumont Crescent, a low landform buffer between the play area and Sloan Avenue street edge, on street parking with an accessible stall, and deciduous tree plantings enhancing existing site canopy cover.

The play area will include a junior / senior structure geared to ages 2 to 12 years, a swing set, and ground level activities suited to all user age groups.

Pathway connections to both street frontages will be a minimum 2.5 meters in width and asphalt surfaced with appropriate accessibility tactile warning strips at roadway interfaces.

# Sloan Hill Park – Concept - C

## Design concept

This park concept option embraces a structured geometric form that encloses a square play area with rubber safety surface, asphalt pathway connections to Sloan Avenue and Beaumont Crescent, a square concrete seating pad overlooking the play area with waste & recycling receptacles closer to Sloan Crescent, an asphalt surfaced half-court, on street parking with an accessible stall, and deciduous tree plantings enhancing existing site canopy cover.

The play area will include a junior / senior structure geared to ages 2 to 12 years, a swing set, and ground level activities suited to all user age groups.

Pathway connections to both street frontages will be a minimum 2.5 meters in width and asphalt surfaced with appropriate accessibility tactile warning strips at roadway interfaces.
